

N10 Bob Lambert Additional Statement

I have been asked by the Inquiry to provide details of any violence and intimidation to which I have been subjected since I was confirmed as having been an undercover police officer.

I have not been subjected to any violence.

I have identified a number of instances of what I would describe as intimidation in my previous personal statement to the Inquiry dated 17 February 2016.

I have suffered intimidation and harassment as part of the 'sack Bob' campaign - being photographed with colleagues in canteen at London Met University, being accused of being a rapist on twitter, and being confronted by hostile activists while travelling to work. I have been called a rapist in leaflets handed out by protesters to my students and colleagues and on one occasion a protester aggressively asked a colleague of mine how it felt to be working with a rapist.

I have suffered intrusion of privacy - activist research into my leisure activities identifying neighbourhood where I live (see MPS assessment)

Signed.
