

N40 Impact Statement update

August 2017

1. This note updates the statement provided in December 2015. Since that time my health has deteriorated significantly. The ongoing fear of my identity being revealed, either deliberately or inadvertently, has increased because of this Inquiry.

9. I reiterate: I have never been accused of any wrong-doing. [REDACTED]
[REDACTED] Detailed scrutiny of unit records reveals *nothing* to suggest my conduct was questionable. I am proud of my record on SDS and believe my operation was in the public interest, but now find myself effectively vilified by association. My targets represent a real risk to my family's safety.

10. Revealing my name, including that of my cover identity, remains something that would dramatically impact on my family and I. I respectfully request the consideration of the Inquiry to issue Restriction Orders as appropriate.
