

Gist of letter provided to Inquiry from HN332's General Practitioner (dated 15<sup>th</sup> May 2017)

Letter confirms that HN332 is in his late 80s.

The letters sets out a number of significant matters in his medical history and confirms the conditions from which he is currently suffering including:

Coronary artery disease for which he is prescribed medication

An abdominal aortic aneurism for which he is under care by a vascular team.

He has expressed to his GP a feeling of stress at having been contacted regarding the Inquiry.

In an update letter dated 17<sup>th</sup> July 2017, the GP confirms that HN332 does not consent to further medical information about him being provided.
