

Gist of additional information supplied in 'closed' schedule to the open application:

HN332 worked in the SOS at its inception in a supervisory capacity for a short period. He returned in the early 1970s in an authorising or supervisory capacity. He remained in this capacity for several years during which time he was part of an SDS review.

There is no known indication or allegation of wrong doing.

No cover name is known.

The MPS considers it unlikely that he ever deployed as a UCO. A member of HN332's family believes he did deploy but came close to being compromised.
