1. The following information has been received from a reliable source:-
2. "Members of the Croydon Branch of the International Socialists are making a concerted effort to establish themselves on the New Addington Estate, Surrey. Each Sunday members of the Group sell copies of 'Socialist Worker', from door to door on the Estate.
3. In addition to these sales regular deliveries of the paper are made to some thirty-five people living on the New Addington Estate. The Group are hoping to expand their membership by promoting interest through these sales and have been trying to obtain premises in which to hold public meetings. To date, however, all efforts to obtain suitable accommodation have proved unsuccessful.
