28.10 1. This is an excellent and most comprehensive report which reflects credit on D.S. HN340 and D.C. HN68 who, it is known, worked under conditions of considerable difficulty. 118

2. The Conference was clearly not the success hoped for by LAWLESS and Privacy and the very ready friction between IS and II supporters augers ill for the future of the organisation.

Like very detailed and interesting report at 6A represents first class work by DS HN340 and 131
D.C. HN68 Their knowledge of the main personalities presented and the organisation they represented stands out very clearly indeed. Please ensure that the officers are so informed by C.I. Saunders.
