

S.B. No. 1 (Flimsy)

METROPOLITAN POLICE

(COPY)

Special Report }

SPECIAL BRANCH

13 October 72
day of19.....

SUBJECT
International
Socialists

Reference to Papers
400/72/147

1. The following information has been received from a reliable source.

2. The International Socialists have decided to form a records and information service to be known as **ISIS International Socialists Information Service**. The object of ISIS is to collect background information on persons and organisations so as to assist in industrial disputes.

3. A circular has been sent to all IS branches calling for the names of contacts to assist in the formation of ISIS ie industrial contacts and reference librarians who would be prepared to supply relevant information - the source of which will be treated in confidence.

4. The information supplied by the organisation will be classified according to its reliability and will be listed as fact, fairly reliable or rumour. Members will be able to call on ISIS to assist with propaganda and to give the appropriate contacts who will then supply information, such as industrial management manoeuvres and financial speculation etc.

5. It is accepted however, that ISIS will take some time before it can build up sufficient information to make any real effect in this field.
