BOX 500

1. The following information has been received from a reliable source:-

2. Privacy is the Secretary of the North West London Committee of the Stop the Seventy Four.

3. She is currently living with Privacy at Privacy Privacy and employed as a secretary at Privacy Privacy

4. She is a close friend of Privacy Chairman of the NW STST, but cannot be described as being "politically aware". She is, in fact, a somewhat immature, naive person and it would seem that she was made Secretary of the group because of her clerical experience.

5. It has been established that she intends to take up employment as a Probation Officer in Bristol in October 1970, and has just received confirmation of that appointment from Home Office.

6. Her description is as follows:-

Aged about 23 years; height 5'0"; short fair hair; slim build with well-developed bust; slightly Jewish appearance; often wears dark rimmed spectacles and has a slight cast in her left eye."

Privacy has one mention in Special Branch records; in 1962 she was reported to be a member of the YCL - 400/61/24A-162 refers.

Privacy is the subject of Privacy
