1. The following information has been received from a reliable source:-

2. Privacy

Privacy who left the INLSF during March this year, are maintaining contact with several members of the Front with the ultimate intention of destroying Ed DAVOREN 'from within'. They are supported in this by Privacy and Privacy who are currently compiling a dossier to expose DAVOREN politically which will be presented to the Front in due course. Apparently there is very strong objection to DAVOREN's dictatorial manner.

3. The Privacy a highly intelligent and politically ambitious couple, are otherwise taking an interest in the Communist Party of Britain (Marxist-Leninist) and on Saturday evenings they attend the Albanian Society. They hope eventually to set up their own Marxist-Leninist party in which members would be full-time and they propose that such a party should be 'financed by crime'."
