1. The following information has been received from a reliable source:

2. "The Workers Revolutionary Party is actively considering infiltrating the Labour Party Young Socialists with a view to the eventual subversion of all branches of the LPYS. This is a practice which has already been used to considerable effect in the Tunbridge, Kent, area, where an entire branch of LPYS and a local councillor were recruited into the Party.

3. Similar infiltration of other groups is being considered but apparently the Young Communist League has been rejected on the grounds that it is virtually non-existent."
