1. The following information has been received from a reliable source.

2. Vanessa REDGRAVE, a Central Committee member of the Workers Revolutionary Party, has received an affirmative reply from the Provisional Revolutionary Government of South Vietnam to her request to be allowed to visit South Vietnam with a party of WRP comrades.

3. It is likely that the visiting group will be comprised largely of actors and ACTY members with a small leavening of 'dirty collar' workers to maintain an appearance of egalitarianism.

4. Many of the WRP members in the 'dirty collar' bracket regard this visit as REDGRAVE's attempt to do a 'Jane Fonda' for publicity reasons. The visit does nothing to alleviate their underlying resentment of the acting faction's monopolisation of executive positions within WRP since the split which led to the formation of the Workers Socialist League."
