1. The following information has been received from a reliable source:-

2. "The International Marxist Group have been considering their participation in the anti-National Front demonstration on September 4 1975, and, at this stage, have decided to mobilize the North and West London cadres, which should amount to about 40 members. They will march in defence of their Glasgow members who are on trial for anti-fascist activities, and are hoping for a Glasgow defendant to speak on the counter-demonstration platform. Should the IMG deem that the demonstration will be larger than anticipated, they may increase their participation.

3. In connection with the anniversary of the war, the Chile Solidarity Campaign has organized a series of pickets from 8-11 September 1975 outside the Chilean Embassy, from 12.00pm to 1.00pm. IMG will take part on the 8 September which is on the theme of 'Culture and Education', and on the 11 September 'Against the Military Dictatorship'. It is hoped that 10 members from Central London (students if possible), and three from North and South West London will take part on each day."

4. The Chile Solidarity Campaign is the subject of 100/75/117.
