18 day of June

1974

1. The following information has been received from a reliable source:-

2. "Following the failure of the 'left' to stop the National Front from holding its meeting in Conway Hall, Red Lion Square, WC1 on 15.6.74, many International Socialist demonstrators voiced their disapproval of Chris HARMAN of the IS National Executive. It was felt he had failed to mobilise IS branch members and had casually dismissed the event beforehand by saying the students would be able to smash the National Front.

4. At the meeting held by 'Liberation' on 6.6.74 when various left-wing organisations had been invited to send representatives to discuss plans for the demonstration, there had been no-one from IS present despite the fact HARMAN had earlier said that IS would be represented."

5. Chris HARMAN is the subject of Special Branch RP 405/63/6
