1. The following information has been received from a reliable source:

2. Privacy an anarchist, who claims to have been a member of Peoples' Democracy (London), but whom P D consider to have been only an associate member of their organisation, has recently resigned from that group as he claims he disagrees with P D 's unconditional support of the Provisionals indiscriminate bombing in Northern Ireland.

Privacy believes the Provisionals should attack only specially selected targets such as big businessmen, politicians, and other capitalists.

3. Privacy who is not known to have taken part in any political activity for the past five weeks has now joined North London Claimants' Union and is rapidly establishing himself as a leading member there.
