Entertaining plays made to measure for your union, workplace or community. Written with the help of rank and file workers these plays can be used to stimulate discussion, liven up meetings, raise funds and make you laugh.

## "THE BIG LUMP"

Short, punchy and full of songs, this play exposes the exploitation of the lump labour system. While the parasitic speculators and contractors take their cut the lump worker learns the hard way that the lump doesn't pay. Job security, safety, working conditions and wages are all part of the struggle of the rank and file trade unionists, a struggle which has cost the Shrewsbury pickets their liberty. Union democracy, building for people and not profit and the necessity for unity are among the vital demands the play makes.

Ready now.

15 - 20 mins.  
Indoors or out

OUR THANKS TO THE RANK AND FILE UNIONISTS WHO HAVE HELPED US PRODUCE THIS PLAY

## "NATIONALISATION OF THE AEROSPACE INDUSTRY"

At the invitation of the National Lucas Aerospace Combine Committee we are making a longer play on the question surrounding nationalisation of the aerospace industry. Should workers demand participation or control of their industry? What about job security in the nationalised industries? Should shop floor and staff have a say in determining what they produce? Should the government nationalise the profitable as well as the unprofitable sections? Should firms which have received millions of pounds of taxpayers' money receive compensation?

This play will be relevant not just to aerospace workers but to all who are concerned about these burning issues.

Ready end of February

About 45 mins.  
Indoors only.

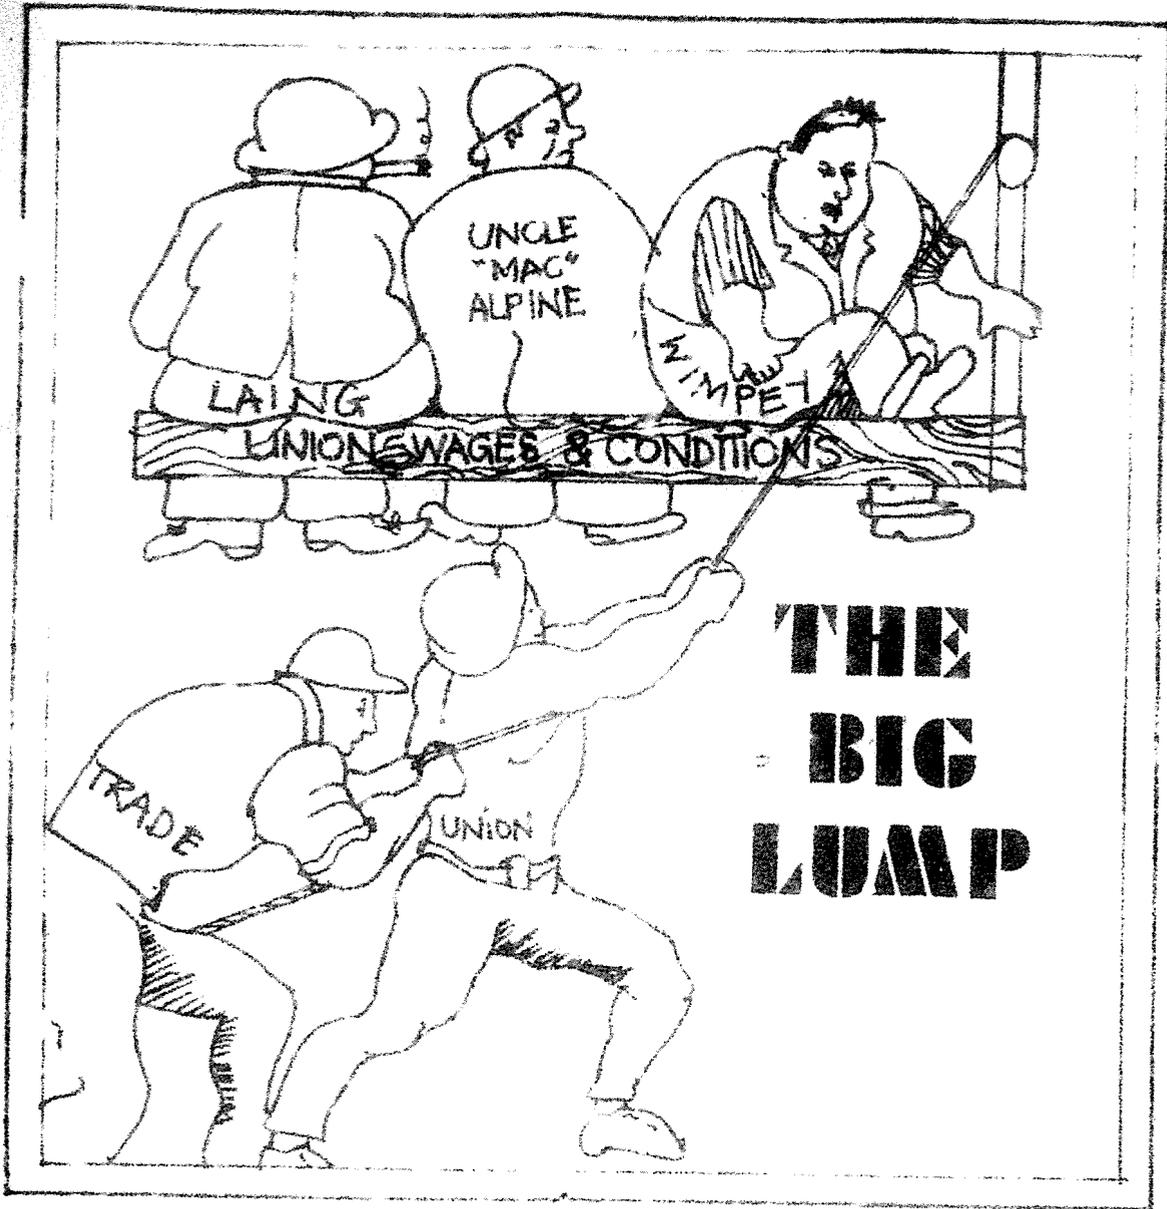

THE PLAY WILL BE PERFORMED BY A LUCAS WORKERS' THEATRE GROUP IN BURNLEY AS WELL AS BY OUR OWN GROUP
