Whilst the majority of these persons are members of the Socialist Workers Party, it was felt by those concerned that the general public would be more receptive to a committee formed of local active trade unionists rather than outright political activists.

4. In addition to her position on the committee, Nora CARLIN has also been appointed Organising Secretary in order that a close liaison is maintained with the Anti Nazi League head office and, more importantly, to ensure that the activities of the local group are conducted in accordance with the national policy of the Socialist Workers Party."
