SUBJECT

1. The following information has been received from a secret and reliable source:-

2. " Privacy born Privacy, has not been seen in Socialist Workers Party circles in the North-West London area for the past three years. Although she is a member of the militantly political Privacy family she does not have the political motivation of her brothers and sisters. She is interested in Irish matters but most of her activities in the past have merely involved her attendance at SWP or Irish socials."
