VISIT BY MPSSB SDS OFFICERS

1. This is to confirm that DCI David Short and DI HN68 will visit Curzon Street House on Tuesday 15 June for discussions with us at 1130 in the DG's Conference Room, 4th floor (Room No ).

2. David Short is responsible for the running of the SDS unit and HN68 is his assistant. Both are keen to help in any way they can and are informal in their approach. The objective of the meeting is for them to meet the consumers of their intelligence, for you to refine your requirements from their existing sources, and for us to jointly consider if there are gaps in coverage which they might be able to fill, while bearing in mind that their primary justification is for advance information on potential law and order problems.

3. I suggest that intelligence desks should be prepared to speak for about five minutes on the contribution of SBS information to their work and on current and possible future areas of concern. Beyond that we will be looking for an open and informal exchange of views.

7 June 1982
