

NOTE FOR

Liaison file

1. On 10 September 1982 I visited SDS for a meeting with [redacted] and David Short. [redacted] HN68
2. HN106 is taking [redacted] and possibly [redacted] to Leeds on 19 - 26 September, the former is being sent there by RCP. David Short asked for any useful information about RCP in Leeds. (Information passed by telephone on 14 September).
3. HN85 is feeling over-exposed at 84B Whitechapel Road, and wondered whether we had a [redacted] that would enable him to avoid risking his security [redacted]. (F7/[redacted] is in the process of applying).
4. Mike CHITTY, ex-Kent police, Bermuda SB [redacted], is being considered for SDS.
5. A new source is being run into North London SWP (see serial [redacted]). [redacted] David Short promised pp's when we next meet.
6. In answer to HN68 query in serial [redacted], I confirmed that we would like publications produced by the Anti-Apartheid Movement.
7. I outlined our interest in the new SWP National Office as asked for by F7 [redacted] in serial [redacted]. HN155 is their most difficult customer. They are aware that he has NOT yet met our brief at serial [redacted]. They will chase up the list of Leyton SWP members as requested in serial [redacted].
8. I passed over the photograph of [redacted] as requested by F7 [redacted] in serial [redacted] and the recent longer brief from the same desk. MPSB demand for newspapers is high. I said that we would ask other sources if our request increased HN106 exposure.
9. I passed over F7 [redacted]'s brief as at serial [redacted]
10. I further pressed our interest in Peace News/London Peace Action (PLA), Greenpeace and [redacted] an individual. On this occasion, David Short wrote it down. Since our last meeting I had discovered

/... .

that [REDACTED]. David Short will mention our interest to [REDACTED], but suggested that [REDACTED] should also put our interest in writing to MPSB.

11. As usual, the meeting was very cordial. Over a drink I floated the idea of SDS talent spotting for our longer term source penetration. David Short was receptive while mentioning head office apprehension about anything that could blow the SDS operation.

12. David Short regretted missing out on the [REDACTED] Sys/Craft meeting. I assured him that it had been largely liquid and that I would promote a further more social occasion!

13. While David Short was buying a round, I told [REDACTED] HN68 how much F7 [REDACTED] had enjoyed meeting [REDACTED] HN85 (unofficially promoted by [REDACTED] HN68 early in August). [REDACTED] HN68 was anxious that David should continue not to know about the meeting as he was obliged to follow office policy which was against such contacts.

14. I showed SDS six MI5 letters dating from 4 August to 2 September copied to me and sent to MPSB to which SDS would contribute in the reply. [REDACTED] HN68 had seen none of these. They were wary of bypassing the system and none of the letters were more than routine, so I did not leave copies. It is, however, a reminder that much depends on the appropriate MPSB squad realising that SDS can help.

15. [REDACTED] HN106 has seen nothing more of [REDACTED] the Military Attache [REDACTED]
