1. According to reports in the Spectator and Observer a new militant anti-nuclear movement is about to be established in the UK under the leadership of Arthur SCARGILL.
2. The first meeting was held, (according to the Spectator in conditions of some secrecy), during the first week of September. It was chaired by SCARGILL and was attended by representatives of all the major anti-nuclear groups - (Greenpeace, the Ecology Party, Energy 2000 etc). During the meeting it was decided to hold the first national anti-nuclear conference in London on 10 November. (We do not yet know the venue).
3. The idea behind this movement is obviously to organise all the anti-nuclear groups into some form of united action and to establish a large popular movement similar to CND.
4. We would very much like to have agent coverage of this meeting. Would it be possible for you to talk to SDS about this please?
