LOOSE MINUTE

*sent to SDS (by hand) 25/10/81*

Attached is a copy of my minute to F4 officers giving comments and requests for coverage of the forthcoming SWP Annual National Delegate Conference. It applies equally to SDS except, of course, that after their splendid performance of last year it is rather teaching them how to suck eggs!

2. Under the school student/student section (para 4d) it may be worth reminding them of the questions raised in my brief of 2 September this year for the SWP Youth National Meeting on the 5th. In the event, I understand this was not covered, but if any of the questions raised are answered at the National Conference I would be glad to know.
