** The 'longstop' is the earliest or latest date something could have happened, in cases where the actual date is unknown. For example: We do not know exactly when HN80's deployment ended. We know the SDS was "shortly withdrawing" him as at 24 November 1981 (UCPI0000028840), and that he had "been withdrawn" as at 11 March 1982 (UCPI0000027519). Therefore, his deployment must have ended at some point between 24 November 1981 and 11 March 1982. This is reflected on the timeline with a 'missing vertical line' as at November 1981 and a 'longstop bold diagonal line' in March 1981.
