2. "On Monday 9th February, 1981 at 8pm at Ross Wyld Hall, Church Hill, E17 the Waltham Forest District of the Socialist Workers Party held a public meeting to discuss the subjects of unemployment and cuts in Government expenditure.

3. The meeting, chaired by John BUNIAK, commenced at 8pm and some 58 persons attended.

4. Guest speaker, Tony CLIFF (Central Committee Member of the Socialist Workers Party) gave a forty five minute speech in which he urged Socialists to unite under the organisational umbrella of the Socialist Workers Party in order to increase the membership of the Party (presently showing a strength of 4,100). He stressed that Labour Party written resolutions against the Government were totally ineffective and that the time for action was overdue. The working class must now actively engage in workplace occupations and step up pickets whenever faced with redundancies or lay-offs and take a decisive and united stand against management at the slightest opportunity.

THE FIGHT FOR JOBS & THE FIGHT FOR SOCIALISM

TORY policies continue to push unemployment towards 3 million.

Already there are 6000 on the dole in Waltham Forest.

Thatcher and her gang are out to force working people to pay for the crisis of **their** system.

It's **our** jobs and living standards at the expense of **their** profits
The conditions of the 1930's, the last slump, is fast becoming the reality of the 80's.

No return to the 30's.

We can and must fight for the right to work.

AND if the system can't give us that right—then lets change the system.

The **SOCIALIST WORKERS PARTY** believes this to be a real alternative and one worth fighting for

Imagine:

If working people themselves took control of the factories and offices they would run them for the benefit of all and not for the profit of a few.

Slumps would *really* be a thing of the past
