NOTE FOR FILE

1. The meeting suggested in para. 7 of s. [REDACTED] eventually took place at New Scotland Yard on Friday 30 August under the joint chairmanship of Commander Rodger and F6. Those present were:-

Det Ch Supt <sup>Robby</sup> Riby Wilson i/c C Squad  
Det Ch Supt [REDACTED] i/c E Squad  
Det Supt Dave (Bushy) Bicknell  
i/c Central Technical Resources  
Det Ch Insp Derek Kneale i/c Special  
Demo Squad  
Det Insp [REDACTED] E Squad  
F6 [REDACTED]  
F6 [REDACTED]  
F3 [REDACTED]  
F1 [REDACTED]

Commander Rodger explained that DCS Wilson had taken over C Squad from DCS Rollo Watts but that the 'hairies' (SDS) were now under the control of DS Bicknell in a newly formed Central and Technical Resources Section which also looks after technical operations. The SDS is under DCI Kneale. The remaining functions of C Squad and those of E Squad are as hitherto.

2. We went on to discuss penetration target by target and Rodger said [REDACTED] MPSB had no paid agents working on long term penetration of any Ultra, Black Power or Arab target at all. They relied solely on [REDACTED] the ability of police officers to attend public functions of organisations. The only in depth coverage - and here it is only in the Ultra Left field - is by means of their own officers in the Hairy Squad. (Matt Rodger gave me "for my own use" a list prepared the day before the meeting of targets at that time penetrated by the Hairy Squad.)

[7] [REDACTED]

4. We next discussed Black Power [5] [REDACTED]

5. In the Arab field MPSSB use the front-door technique only. They make regular visits to the various Embassies and quite naturally pick up but little of value in the terrorist field. [7]

[7] explained [REDACTED] the criteria used to decide what to pass on to MPSSB for action.

6. We touched briefly on [6] [REDACTED], but did not go into detail since Commander Rodger told me the situation was likely to change in a day or two and he would prefer to give me the details then on a "man to man" basis. He would say no more but accepted our point that our interest in protecting his agent was as great as his own. This led to a more general discussion on the protection of agent material and [7] and [REDACTED] explained yet again/P4/Police reporting system with its attendant paper work. [7] Rodger agreed that [REDACTED] could discuss this in greater detail with Bicknell and if various administrative problems connected with the processing of agent reports within Scotland Yard itself could be sorted out, start such a system off for dealing with the product of Hairly Squad operations.
