

Spectacular aerial view of the Harbor - Santa Monica Freeway interchange in the sprawling metropolis known as Los Angeles.

Didn't stay long in N.Y. not my type of place. Have heard or drive here cars down here for the winter. Got my address book so can only write to people whose addresses I can remember, or they might not be right. Music & people really better than I expected. All in all a lot better than W'ster. Having a bit of trouble getting enough money for everything I want to do so traveling a long in an old VW wreck - nothing near good but to everybody's view.
