

# Cover Sheet

20 April 79

Commander, Special Branch

Commander, AD

1. Please find attached copy Special Branch report concerning an anti-National Front demonstration organised by the Indian Workers Association (Southall) on Sunday 22.4.79. Although the Association's hierarchy are expecting an attendance of 10,000 persons, a more realistic estimate would be in the region of 5,000. The vast majority of participants will be drawn from the local Indian community and it is the firm intention that the event be well disciplined and peaceful.

2. Since this assessment was prepared, it has been learned that the Trotskyist International Marxist Group has issued an all-London call out in support of the demonstration. Although this will mean the addition of less than 200 persons, their presence could constitute a disruptive, anti-police influence.

  
Commander
