Mr Phillips

cc Mr [redacted]

SPECIAL BRANCHES

I have had a stab at a draft submission on Special Branch terms of reference (attached). You and Mr [redacted] will want to comment and I have no doubt amend it. As you will see the Draft in fact goes slightly wider than the terms of reference themselves in that the other work done on Special Branches is briefly described. I felt it was only sensible that Sir Brian Cubbon should be shown the whole picture. I have tried to keep the submission as short as possible. The result is that difficult issues are merely mentioned, not discussed in detail. You may like to give further thought to this.

*Let us have  
word. I think  
we can get a bit  
further than this  
towards the end, and  
I would prefer to  
end positively (if we can)  
rather than  
intentionally.*

*Mr:  
15/12*
