SIR BURKE TREND
CABINET OFFICE

Abokob
The Prime Minister has now read your covering minute to your minute about the English Section of IRD which he has noted and approved.

The Prime Minister has asked me to say that he agrees with you that "Subversion rather than Communism" more accurately describes the remit implicit in the title of the Official Committee, and in consequence agrees to the change which you propose, namely that the Committee should be known as the "Official Committee on Subversion (Home)".
